

Warna-Manda Baby Earth Walk

Susan Betts and Mandy Foot

Shadow Stories

Guide Allurru across earth, sea and sky using light and shadows.
Shadow puppets are perfect for bringing storytelling to life.

Follow these steps...

Cut your puppets out and attach a popsicle stick to the back of each one with glue or sticky tape.

1.

As the puppets move, explore how their sizes change as they draw towards or away from the light.

2.

In a dark room, shine a light on a wall, sheet or blanket – hold your puppets in front to start the story.
